

**28th degrees of Scorpio: 'The King of the Fairies approaching his domain'**

Here we find ourselves in a different dimension, the abode of poets, inspired artists and children. The subject is king of a subtle, invisible world, a soul like being, radiant within each of us. Retreating from the world of the senses, the soul-fairy enters a more suitable plane to fully express his powers.

This to me suggests a time for paying homage to our child like imagination, the soul's creative function, key to the inner domain of which once we were kings and queens.
