

22 degree of Aquarius: 'A rug placed on the floor for children to play on'

This image illustrates well a situation where playfulness and spontaneous expressions of creativity are allowed to flourish in a safe environment; the rug on the floor helping to soften the unavoidable falls of rough play. In this way children can gradually learn how to cope with hard realities without being thrust into them prematurely.

Playing at life is the first step toward a deeper understanding of one's environment and fellow human beings, the essential basis in fact of all future developments and relationships.
